---

Dear SHOPSMITH Owner:

You will be glad to know that you are one of the very first SHOPSMITH owners to receive a machine with a new development in electric motors. It is more powerful and has somewhat different and improved operating characteristics and is a result of our continued efforts to improve SHOPSMITH.

We are particularly anxious to have any comments you might have after you have operated and become familiar with your new SHOPSMITH. As always, we feel that the attitude of our owners is of primary importance. We would sincerely appreciate your sending your remarks along with the Serial Number of your SHOPSMITH directly to the Customer Service Department, Magna Engineering Corporation, Menlo Park, California.

Very truly yours,

MAGNA ENGINEERING CORPORATION

Robert L. Chambers  
President
