

## Shopsmith Mark VII Motor Test

SECURE before powering up. It will jump off the bench if not!

Just to bench test this motor; what wires can I connect to check it for forward operation?  
white to power neutral  
black to power hot

red T5 to yellow 5  
redwhite T9 to whiteblack 2

reverse red/redwhite to reverse direction.

information on the relay and I have gotten that from the component manufacturer (NTE Electronics).

Red/White T9 Black

Red	T5	Brown
White	L1	Power Cord
Black	L2	Power Cord
Yellow	5	Brown
Wite/Black	2	Orange

L2	L1 blue	T5	T9
----	---------	----	----

L2	L1 black	5	2	5
----	----------	---	---	---
